Arizona Section Newsletter
February 2019

Arizona Section Manager, Rick Paquette W7RAP
The New Year is just beginning and already we have great things happening all over Arizona.

Thunderbird Hamfest - We began the year with the Thunderbird ARC annual Hamfest on January 12th at its new location. Congratulations to Brian McCarthy and the Thunderbird club members for an excellent transition to the Nazarene Church location. Clean, modern facilities and lots of room. The prizes were terrific and turnout was good. A great start for the New Year.

CADXA Banquet - The Central Arizona DX Association (CADXA) held its annual banquet on January 19th in Scottsdale. There, 70 of the DX-Elite attended and heard an excellent presentation by Don Sears (N7PLL) an award-winning senior camera and video coordinator at NBC for many years. His program, “How the Olympics Gets From the Ski Slopes to Your Home” gave us a unique behind the scenes look at the technology we take for granted that brings us spectacular viewing in real or near-time from across the planet. The Presidential Service Award went to Bob Davies K7BHM for his continuing support to CADXA as historian, prize guru, committee chair, and numerous club efforts. The DX-er of the Year award went to Mickey LeBoeuf K5ML, who continues to show us how despite living in a HOA community, that chasing DX can be done very successfully.

ARRL - Arizona Section web site: www.az-arrl.org
Follow us on Facebook: ARRL - Arizona Section: www.facebook.com/ArrlArizona
Quartzfest ARRL Specialty Convention - We attended the Quartzfest in the Arizona desert, five miles south of the town of Quartzsite, from January 20th through the 26th. Record breaking crowds and a much larger list of presentations, activities, and speakers provided attendees with great opportunities for fun, learning, and a chance to meet old (and new) friends. Ray Novak of ICOM America was there to introduce their brand new SDR radio, the IC-9700 which astonished the crowd. We had become the very first exposure nationwide to this product. (Yes, we beat out Orlando!!) Moreover, Ray announced that if our attendance topped 1000 by the end of the week, he would donate an IC-9700 as the grand prize. Sure enough, by Friday, noon we reached 1043! The very first IC-9700 was won at the grand prize drawings on Saturday afternoon.

A seemingly endless parade of events ensued all week long, 3 or 4 at a time. ARRL-AZ conducted 4 presentations and events, and we helped 45 hams upgrade or become new Technicians. The week ended with ARRL Southwest Division Director Dick Norton (N6AA) giving a talk on activities at league headquarters, where he had just returned from their Board of Directors meeting.
ARRL Southwest Division Director, Dick Norton N6AA, QuartzFest ARRL Forum - Fresh off his trip to the ARRL Board of Directors’ meeting in Newington, our ARRL Division Director Dick Norton N6AA presented to a large crowd at the QuartzFest ARRL Specialty Convention in the Arizona desert on January 25th. His talk highlighted major changes in direction by the ARRL Board.

- ARRL Board has revoked the sanctions and the Code of Conduct actions against its Directors.
- Volunteer Monitor program. The FCC wants VM’s to be better qualified and be able to get results when problems arise. The Official Observer program had worked on our end, but nobody was paying attention at the FCC. The new VM program is about to be rolled-out and previous OO's will be given first priority.
- QSL Bureau charges will be returned to being a membership benefit. The ARRL will stop trying to run it for profit.
- National Traffic System. Many groups have split off to become the Radio Relay International. The damage has been done, but the new ARRL board would like to mend ties.
- ARES – ARRL will allow each section to set the “rules” and adapt, since some sections organize ARES based on counties, while others operate under hospital layouts. The ARES program in each section will be the ultimate call of the Section Manager (along with SEC and DEC’s). They will be allowed to accommodate local requirements. The ARRL EC- course fees will be dropped, allowing ARES members to be able to take these for free.
- The ARRL petition to the FCC for Technicians to gain more HF privileges was discussed, but there is no real update at this time.
- The ARRL Web site revamp is underway, including a new Life Long Learning program. The issue is that there are 30k new hams annually, but ARRL only gets 17% to join and only half of those renew after the first year. The ARRL really want to focus on new hams and they are brainstorming how to appeal to these folks, providing a resource where all hams can turn to for answers and Elmer help.
- In membership growth discussions with the forum attendees, it was proposed that the ARRL should offer a discount to first time members. They also discussed various membership incentives for older hams as well as life-membership discount concepts. The ARRL used to offer a 5-year renewal discount, but now only offers up to 3 years. Requests were to bring back the 5-year option. It was suggested that the IEEE offers free lifetime membership if years of paid membership plus age is greater than 100. Could the ARRL adopt a similar program?
- Many Hams have started YouTube channels with training on amateur radio. KE0OG suggested the ARRL work with these folks to contribute to a ARRL Life Long Learning portal as was mentioned above. Director Norton agreed that the ARRL should look into pursuing this.
- The status and issues with the acceptance of the Amateur Radio Parity Act was discussed. The ARRL has reversed its stance on much of the proposed recommendations and has withdrawn its proposal to have the FCC incorporate the provisions of the ARPA into its rulings.
2019 A Great Start for Arizona Hams - We have an overload of great events and activities right off the bat this year. Exciting times lie ahead and we are making good progress on our mission to help Amateur Radio grow in size, stature, and public awareness. We wish every Amateur Radio operator here in Arizona the VERY BEST for 2019.

ARRL Southwestern Division Convention - The biggest event for hams here in Arizona has got to be the Southwestern Division Convention and Hamfest. This year on February 15th and 16th, thousands of hams will gather to a slate of presentations, vendors, and a huge swap meet, in addition to many special events such as the Arizona Near Space Research stratospheric balloon launch, and a Get-On-The-Air (GOTA) Special Event station. ARRL Headquarters is sending a great featured guest, Bob Allison (WB1GCM), who is going to be testing radios at the ARRL booth and is also available to make presentations. Lots of activities fill both days and this is a must do event. Visit http://www.yumahamfest.org to get all the details.

ARRL-AZ Section Manager Election - The campaign for ARRL Arizona Section Manager is underway. There are two nominees who are running for the office, current SM, Rick Paquette (W7RAP), and the Arizona ARRL Public Information Coordinator, Virgil Silhanek (K7VZ). Ballots were mailed to all Arizona ARRL members in early January, along with a description of each candidate’s qualifications and background data. Ballots must be returned to ARRL before February 15th. The two-year term for the next Section Manager will begin on April 1st. If you have not received a ballot, please email Steve Ewald wv1x@arrl.org with your name, callsign, and address so they can verify your membership and make sure you get a ballot.

AUXCOMM training opportunity - This is an excellent training opportunity for any ham radio operator to improve their knowledge of emergency amateur radio communications in a public safety context and we highly recommend it. Best of all, the training is free! See the attached bulletin for additional details and instructions for registration on page 2 of the bulletin. Feel free to contact me if you have any questions about the registration.

C992: AUXCOMM  Event ID: C992-001 -See 2 page flier below-  
Course Dates: March 23-24, 2018 - 8:00am – 7:00pm (~10 hours per day)

Jim Fisher | Technical Communications Manager | Pima County Office of Emergency Management

Section Emergency Coordinator, Dennis Biety KE7EJF
At the Thunderbird Hamfest in January, the SEC, a few DEC’s and EC’s attended a meeting that was scheduled to be a discussion by both of the Section Manager candidates, but it ended up as discussion about ARES and what the ARRL’s future plans will be. As of this writing there has been no official release of what the ARRL Board’s decision was, but as was discussed in the meeting, Arizona is about emergency communications. We don’t care what group you belong to, be it ARES, Red Cross, SATERN, CERT, etc., in time of emergency we all come together to get the job done. Each agency we serve has its own requirements and each District Emergency Coordinator works to meet the local agencies requirements. Just as a reminder, to be a useful resource, ARES members need to have ICS-100, 200, 700 training. They are free and available online. If you support or want to support an EOC, then ICS-800 is also needed. Hopefully more formal information will be distributed by next month’s newsletter and I will update you on what, if any changes will be made.

Affiliated Club Coordinator, Mike Boger W7IJ
Greetings ARRL Member Clubs: The New Year is upon us and I would like to take this opportunity to wish everyone a great and prosperous year ahead. Many of the clubs have recently held elections, so now is the time to update those ARRL Club profiles online. These profiles help attract members to your organizations, and so please take some time and fill out the Club Update form on the ARRL website. Updating your information is a requirement to keep your club in “Active” status and visible to a section search.

Here is an easy “how-to” document on updating your info: http://www.arrl.org/club-update

Also, if you are an ARRL Special Services Club, this is a reminder that you must re-register for the SSC every two years. If you are interested in becoming an SSC, please contact me. I’ll be happy to give guidance on the process. I will be sending out reminders to update your club profile as well as SSC information as your renewal date becomes due.

Local Government Liaison, Virgil Silhanek K7VZ
In Arizona, the first regular session of the fifty-fourth legislature has begun. We were expecting a bill banning texting while driving to be brought up this session. Public outcry has increased after the tragic death of Salt River Officer Clayton Townsend on January 8th by a man accused of texting while driving moments before the accident. There are currently 4 bills in the system that we are monitoring. They are SB1141 Distracted Driving, SB1165 Prohibition; Texting While Driving, HB2069 Text Messaging While Driving; Prohibition, and HB2165 Distracted Driving; Reckless Driving.

At the time of this writing, the only bill that has movement is SB1165 which has been assigned to the Transportation and Public Safety Committee. It does have an exemption for Amateur Radio. https://www.azleg.gov/legtext/54leg/1R/bills/SB1165P.htm Exemption: “D. 2. AN OPERATOR WHO IS LICENSED BY THE FEDERAL COMMUNICATIONS COMMISSION WHILE OPERATING A RADIO FREQUENCY DEVICE OTHER THAN A PORTABLE WIRELESS COMMUNICATION DEVICE.” The term “Portable Wireless Communications Device” is a term used to define a cell phone, not a HT. ARRL executive counsel Dan Henderson has reviewed the legislation and approves of its content.

--- --- --- ---
ARRL - Arizona Section web site: www.az-arrl.org
Follow us on Facebook: ARRL - Arizona Section: www.facebook.com/ArrlArizona
We’ll continue to monitor progress of these bills and please stay tuned in if we have any further calls to action to the Arizona Amateur Radio community. No matter what, always make sure your attention is on the road when driving and set the mic down if your radio usage is a distraction.

**Upcoming Hamfests and Events**

**See upcoming hamfest fliers attached at bottom of this newsletter.**

- 2/15 to 2/16 – Yuma Hamfest (Southwest Division Convention) [http://www.yumahamfest.org](http://www.yumahamfest.org)

**Description:** Volunteer emergency communications operators/groups, using amateur radio, have been providing backup communications to public safety for nearly 100 years. Event planners, public safety officials, and emergency managers at all levels of government utilize their services. Often, amateur radio services have been used when other forms of communications have failed or have been disrupted. Today, nearly all the states/territories have incorporated some level of participation by amateur radio auxiliary communication operators into their TICPs and SCIPs. This course focuses on auxiliary communications interoperability, the relationship between the COML and the volunteer, emergency operations center (EOC) etiquette, on-the-air etiquette, FCC rules and regulations, auxiliary communications training and planning, and emergency communications deployment. It is intended to supplement and standardize an operator’s experience and knowledge of emergency amateur radio communications in a public safety context. This course is two days long (10 hours each day) and is limited to 30 students.

**Target Audience:** This class is designed for those auxiliary emergency communicators and groups who volunteer to provide backup emergency radio communications support to public safety agencies. Typically, this includes amateur radio and Radio Emergency Associated Communications Team (REACT) communicators, but may include other volunteer emergency communicators.

**Registration:** This course requires self-registration through the State’s online registration system at dematraining.az.gov. It is recommended that participants enroll no later than 14 days prior to the start of the course using the above Event ID or Course Name. First time users will be required to create an account prior to enrollment. You must provide a valid email address and phone number for contact information. Instructions are included on page 2 of this bulletin. For registration assistance, contact the DEMA Training Branch at 602-464-6225 or training@azdema.gov.

**Costs:** This training offering is provided at no cost to eligible participants.

---

Course dates and location are subject to change. Check your Portal account prior to attending for the most current status of this event.
Registration Instructions

1. **To register for an event**, visit dematraining.az.gov.

2. **To create a new account**
   a. Click on the “WebForms” link under the resources section on the right side of the page.
   b. Choose the “Request DEMA Training Portal Account”, complete the form and click submit. Your request will be reviewed within one business day and you will receive an email response with further instructions to complete the setup process.

3. **If you have an existing Acadis Portal Account**
   a. Log in with your email address and password.
   b. If you have forgotten your password, click on the “Reset your password” link under the password field. You will need to have the email address you used to sign up. If you have forgotten your login email address please contact us at 602-464-6225 or email training@azdema.gov for assistance.

4. **Search for an event**
   a. On the left navigation pane you can search by keywords or other criteria. To the right you’ll see if the class is open with an option to register or waitlist.
   b. To view the training event details click on the event name.

5. **Two ways to register**
   a. In the Training Event Details screen click on “Request Enrollment” on the bottom right. After clicking the link, you’ll be brought to a screen that will confirm the event name and your contact information.
   b. From the List of Available Training screen, click the link that says, “Register” on the right side of the event. After clicking the link, you’ll be brought to a screen that will confirm the event name and your contact information.
   c. If the class has prerequisites, you will be asked to supply information to fulfill these requirements on a separate screen. When completed click “Submit Request”.

6. **To cancel your pending registration**
   a. Log in to your account; click “Registration” (top navigation pane). All requested training will be listed.
   b. Click “Cancel Request” next to the class you wish to cancel. You’ll be asked to confirm your cancellation, and then will receive an email confirmation of your cancellation.

7. **NOTE:** Those with the status of “Enrolled” cannot self cancel. Please call 602-464-6225 or email training@azdema.gov to cancel.

---

*Course dates and location are subject to change. Check your Portal account prior to attending for the most current status of this event.*
